

# poligon® Parasoleil Panels

Poligon is pleased to offer Parasoleil panels in conjunction with our frame structures. Parasoleil creates unique spaces by filtering light using custom perforated panels made from powdercoated aluminum.

## Features

- Panels are offered in 20 unique patterns laser cut onto aluminum panels
- Options include (4) standard, (2) metallic, and (3) patina finishes
- Available in thickness of 1/16", 1/8" and 1/4"
- Standard and custom panel sizes available
- Panels can be used for shading, vertical accents, or decorative privacy screening.
- Patterns are based on traditional, cultural, natural, and contemporary motifs to suit a variety of applications.
- Maintenance free
- Draws heat out through the openings for more comfortable space

## Applications

- Overhead shade
- Entry/window awnings
- Curved canopies
- Railings
- Privacy screening
- Park shelters
- Trellis screens
- Hiding mechanical areas
- Cladding/facade
- Signage & Backlit surfaces

**It's about design that lasts.  
It's about sustainability.  
It's about the shadows.**
